Poway Veterans Organization
Volunteer Data Sheet

Name	Address	Phone	E-mail address

We would like information about your general skill levels so that we can determine your potential volunteer team assignments. We are interested in general construction/handyman skills such as carpentry, plumbing, electrical, drywall, painting, etc. We are also interested in general mechanical skills such as engine repair, welding, sheet metal working, etc.
The information that you provide will allow the PVO Team manager to fit your skills with the needs of our veterans

Do you have any availability restrictions for our volunteer projects?

What is the best time to contact you?
